Practise and prepare for AQA A-level Chemistry with hundreds of topic-based questions and one complete set of exam practice papers designed to strengthen knowledge and prepare students for the exams. This extensive practice book raises students' performance by providing 'shed loads of practice', following the 'SLOP' learning approach that's recommended by teachers. -

Consolidate knowledge and understanding with practice questions for every topic and type of question, including multiple-choice, multi-step calculations and extended response questions. - Develop the mathematical, literacy and practical skills required for the exams; each question indicates in the margin which skills are being tested. - Confidently approach the exam having completed one set of exam-style practice papers that replicate the types, wording and structure of the questions students will face. - Identify topics and skills for revision, using the page references in the margin to refer back to the specification and accompanying Hodder Education Student Books for remediation. - Easily check answers with fully worked solutions and mark schemes provided in the book. Packed full of GCSE-style questions to test understanding, this AQA Chemistry revision and classroom companion is designed to help students revise everything they need to know, and familiarise themselves with the types of questions that they may come across in the exam. Endorsed by AQA, this Chemistry revision and classroom companion provides in-depth coverage of all the externally assessed course content for the GCSE AQA course. Clear explanations

and supporting diagrams ensure understanding and help students to prepare for the exam with confidence. Included in this book: \* in-depth coverage that provides everything required for thorough exam preparation \* detailed explanations and diagrams to help consolidate and build on knowledge throughout the course \* clear design and direct references to the specification to provide structured revision and maximum assurance \* separate units differentiated by colour and labelling \* topic summaries provide at-a-glance topic overviews \* exam-style questions at the end of each unit \* How Science Works overview Exam Board: Edexcel, AQA, and OCR Gateway Level & Subject: GCSE Grade 9-1 Chemistry First Teaching: September 2016, First Exams: June 2018 Letts Revision improves exam confidence Matched to the requirements of the National Curriculum, this workbook prepares students for their GCSE Chemistry exam with confidence. This workbook provides invaluable practice in answering exam-style questions ahead of the new, more challenging GCSEs. The first section is organised by topic for focused revision. The second section features a complete GCSE Chemistry exam practice paper. \* Lively magazine-style layout communicates all the essential information in an accessible way. \* Plenty of exam-style questions reinforce understanding and improve performance. \* Topic-by-topic practice for focused revision

Revision Guides: Simple and concise explanations of every topic are explored through different activity types. Workbooks: A mixture of question styles help children can get closer to a real' test experience. Practice Test Papers: Test-style questions test understanding and improve performance. Be ready for your GCSE exam with this all-in-one AQA Chemistry revision guide and practice workbook. Written by an experienced examiner, this book allows students to test their knowledge, check their answers and achieve excellent results. Feel confident with complete coverage for the GCSE Chemistry AQA higher exams. Including revision guide pages and corresponding workbook pages, this study guide allows you to revise in a way that suits you best and improve your results at Key Stage 4 Chemistry. Included in this book: \* colour-coded graded content \* lots of tried and trusted questions and exam practice \* detachable answers for flexible practice \* practical guidance and exam technique tips \* clear advice on how to move answers up a grade (grade boosters and progression maps) This exam practice workbook offers targeted practice for the 10 AQA GCSE Physics Required Practicals. A variety of exam-style questions, expert hints on tackling the practicals questions, and tips on applying the skills to different contexts offer the best preparation for the 15% practicals requirement of GCSE Physics. The only textbook that completely

covers the Oxford AQA International AS & A Level Chemistry specification (9620), for first teaching in September 2016. Written by experienced authors, the engaging, international approach ensures a thorough understanding of complex concepts and provides exam-focused practice to build exam confidence. Help students develop the scientific, mathematical and practical skills and knowledge needed for Oxford AQA assessment success and the step up to university. Ensure students understand the bigger picture, supporting their progression to further study, with synoptic links and a focus on how scientists and engineers apply their knowledge in real life. A2-Level Chemistry AQA Complete Revision & Practice This exam practice workbook offers targeted practice for the 8 AQA GCSE Chemistry Required Practicals. A variety of exam-style questions, expert hints on tackling the practicals questions, and tips on applying the skills to different contexts offer the best preparation for the 15% practicals requirement of GCSE Chemistry. Exam Board: AQA Level & Subject: GCSE Chemistry First teaching: September 2016 First exams: June 2018 Revise tricky topics in a snap Collins Snap Revision helps you focus on the areas of your revision that you find tricky or need extra practice in. Spaced practice opportunities allow you to test, revisit and review your understanding throughout your revision, a method proven to improve your performance in the exam. \* Focussed revision

in tricky areas of the exam \* Targeted practice in specific areas where more support may be needed \* Ideal to use at home Specifically tailored for the new 2016 AQA GCSE Science (9-1) specifications, this third edition supports your students on their journey from Key Stage 3 and through to success in the new linear GCSE qualifications. This series help students and teachers monitor progress, while supporting the increased demand, maths, and new practical requirements. Packed full of GCSE-style questions to test understanding, this AQA Chemistry exam practice workbook is designed to help familiarise students with the types of questions that they may come across in the exam. Feel confident with thorough exam preparation for GCSE AQA Chemistry. Including different question formats, this exam practice workbook allows you to revise in a way that suits you best and improve your performance in the exam. Included in this book: \* a variety of question formats as used by AQA to give students the best possible practice prior to tests and exams \* lots of quick tests to check understanding \* relevant formulae and data sheets \* clear and concise coverage of the exam assessed content \* simple and engaging explanations \* highlighted key words, plus a supporting glossary to build vocabulary Supports students preparing for AQA GCSE 9-1 2016 spec exams. Practise and prepare for AQA GCSE Chemistry with hundreds of topic-based

questions and one complete set of exam practice papers designed to strengthen knowledge and prepare students for the exams. This extensive practice book raises students' performance by providing 'shed loads of practice', following the 'SLOP' learning approach that's recommended by teachers. - Consolidate knowledge and understanding with practice questions for every topic and type of question, including multiple-choice, multi-step calculations and extended response questions. - Develop the mathematical, literacy and practical skills required for the exams; each question indicates in the margin which skills are being tested. - Confidently approach the exam having completed one set of exam-style practice papers that replicate the types, wording and structure of the questions students will face. - Identify topics and skills for revision, using the page references in the margin to refer back to the specification and accompanying Hodder Education Student Books for remediation. - Easily check answers with fully worked solutions and mark schemes provided in the book. With Revision Workbooks for question practice and Revision Guides for classroom and independent study, our revision resources are the smart choice for those revising for AQA GCSE Science. Three sets of ocean liners, each destined to be of three vessels, dominated the Atlantic in the Edwardian era. The race to build the biggest and the best began

with Mauretania and Lusitania in 1906, followed by the White Star Line's Olympic and Titanic in 1911-12. Each of these pairs was to see a larger sister, developed as a result of changes needed or desired as a result of operating the two earlier vessels, with Cunard's being Aquitania and White Star's, the ill-fated Britannic. Germany's answer to these British behemoths was the Albert-Ballin designed trio of Emperor, Vaterland and Bismarck. Through misfortune or war, two of these vessels would sink but the others led useful lives, with Aquitania surviving two world wars before being scrapped. Designed to be the absolute engineering achievements of their time, these nine vessels dominated the Atlantic. J. Kent Layton tells the story of the Edwardian Superliners in this fabulously illustrated volume, showcasing many images previously unpublished and never before seen. Rarely can one describe a book as definitive, but this volume truly deserves the accolade. An exact match to AQA which includes personalised learning activities to enable students to review what they have learnt. and advice from examiners on common pitfalls and how to avoid them. Collins AS Chemistry for AQA is the ideal resource to support you through the 2008 AQA GCE course. It has been developed with the help of AQA examiners to ensure a perfect match to the 2008 specification and provides everything you need to succeed in your exam. This book covers AQA Chemistry AS

units: Unit 1 - Foundation Chemistry Unit 2 - Chemistry in Action The book includes the following features: - How Science Works feature boxes and assignments - Real world science in context at the start of every chapter - Questions throughout the text, with answers provided in the back of the book - Key fact summaries throughout the text - Stretch and challenge boxes to push the most able students - Exam-style questions at the end of every chapter - Practice synoptic questions The website includes the following additional support material: - Mark schemes for exam-style questions from the book - Sample student answers to exam-style questions at 2 levels with examiner comments to show students how to achieve a higher grade - Guidance for PSAs to help students to achieve the best grades in their practical assessments - Mathematical and examination technique guidance to ensure that students know how to best prepare for and handle their exams. Also available, Collins A2 Chemistry for AQA, covering: Unit 4: Kinetics, Equilibria and Organic Chemistry Unit 5: Energetics, Redox and Inorganic Chemistry Our Revision Workbooks help you develop vital skills throughout your course in preparation for the exam AQA GCSE Chemistry Essentials covers all the exam-assessed content on the AQA Chemistry specification. It is designed to help students get the most out of their revision - information is broken down into manageable chunks, key words and phrases

are highlighted for last minute recaps and higher tier material is clearly differentiated on the page. Exam Board: AQA Level: GCSE Combined Science Subject: Chemistry First teaching: September 2016 This is the perfect revision book to help you achieve the grade you want in your GCSE Combined Science Chemistry exams containing the new 9-1 syllabus throughout the booklet, which has been closely matched to the AQA course. This Chemistry AQA revision booklet consists of 4, 70-mark practice papers with realistic exam style questions to test your understanding of the most difficult topics, handpicked by teachers and including practical exam questions. Included are 4 detailed mark schemes which are clear and concise to help students. This GCSE Combined Science Chemistry workbook is well suited for assessments, homework, independent study and exam preparation Please note this title is suitable for any student studying: Exam Board: AQA Level: A Level Year 2 Subject: Chemistry First teaching: September 2015 First exams: June 2017 Fully revised and updated for the new 2015 specification, written and checked by curriculum and specification experts, this Student Book supports and extends students through the new course while delivering the breadth, depth, and skills needed to succeed in the new A Levels and beyond. Covers all the content required for the second year of AQA A Level Chemistry studies. Please note this title is suitable for any

student studying: Exam Board: AQA Level: A Level Subject: Chemistry First teaching: September 2015 First exams: June 2017 Fully revised and updated for the new linear qualification, written and checked by curriculum and specification experts, this Student Book supports and extends students through the new course whilst delivering the maths, practical and synoptic skills needed to succeed in the new A Levels and beyond. The book uses clear straightforward explanations to develop real subject knowledge and allow students to link ideas together, while developing essential exam skills. Practice makes perfect This Practice Book for GCSE 9-1 Chemistry examinations is designed to support you in the development of good exam techniques, and provides a step-by-step guide through the new assessment specifications. With loads of practice questions (and answers) for every topic, and written by experienced teachers and revision experts - you can't go wrong! \* Question styles similar to those you will meet in the exam \* Work through lots of practice questions written specifically for the new GCSE 9-1 course \* Challenge yourself with questions designed to get you better grades \* Develop excellent exam technique with exam tips and support to help you when the going gets tough! Do it! Active practice to help you retain key facts Nail it! Examiner tips to help you get better grades Work it! Exam questions broken down into

manageable steps The perfect companion... GCSE 9-1 Chemistry Revision Guide \* Active revision to help the knowledge sink in \* Make sure you really know and understand the key revision points \* Free revision planner and revision cards to help you revise on the go Exam Board: AQA Level: AS/A-level Subject: Chemistry First Teaching: September 2015 First Exam: June 2016 Ensure your students get to grips with the core practicals and develop the skills needed to succeed with an in-depth assessment-driven approach that builds and reinforces understanding; clear summaries of practical work with sample questions and answers help to improve exam technique in order to achieve higher grades. Written by experienced author Nora Henry, this Student Guide for practical Chemistry: - Help students easily identify what they need to know with a concise summary of required practical work examined in the A-level specifications. - Consolidate understanding of practical work, methodology, mathematical and other skills out of the laboratory with exam tips and knowledge check questions, with answers in the back of the book. - Provide plenty of opportunities for students to improve exam technique with sample answers, examiners tips and exam-style questions. - Offer support beyond the Student books with coverage of methodologies and generic practical skills not focused on in the textbooks. Practise and prepare for AQA A-level

Chemistry with hundreds of topic-based questions and one complete set of exam practice papers designed to strengthen knowledge and prepare students for the exams. This extensive practice book raises students' performance by providing 'shed loads of practice', following the 'SLOP' learning approach that's recommended by teachers. - Consolidate knowledge and understanding with practice questions for every topic and type of question, including multiple-choice, multi-step calculations and extended response questions. - Develop the mathematical, literacy and practical skills required for the exams; each question indicates in the margin which skills are being tested. - Confidently approach the exam having completed one set of exam-style practice papers that replicate the types, wording and structure of the questions students will face. - Identify topics and skills for revision, using the page references in the margin to refer back to the specification and accompanying Hodder Education Student Books for remediation. - Easily check answers with fully worked solutions and mark schemes provided in the book. Specifically tailored for the new 2016 AQA GCSE Science (91) specifications, this third edition supports your students on their journey from Key Stage 3 and through to success in the new linear GCSE qualifications. These revision guides will help students revise key concepts, and provide plenty of differentiated practice

questions and support. Based on principles of cognitive science, this three-step approach to effective revision combines knowledge, retrieval and interleaving, and extensive exam-style practice to help students master knowledge and skills for GCSE success. UK schools save 50% off the RRP! Discount will be automatically applied when you order on your school account. The only textbook that fully supports the Chemistry part of the Oxford AQA International GCSE Combined Sciences specification (9204), for first teaching from September 2016. Written by experienced authors, the engaging, international approach ensures a thorough understanding of the underlying principles of chemistry and provides exam-focused practice to build exam confidence. It fully covers the 3 chemistry required practicals in the specification, enabling your students to build the investigative and experimental skills required for assessment. This textbook helps students to develop the scientific, mathematical and practical skills and knowledge needed for the Oxford AQA International GCSE Combined Sciences exams and provides an excellent grounding for further study at A Level.
