Harvard Law Review: Volume 125, Number 1 - November 2011 Nov 18 2022

The Harvard Law Review is offered in a digital edition for ereaders, featuring active Table of Contents, linked footnotes and cross-references, legible tables, and proper ebook formatting. The Review generally publishes articles by professors, judges, and practitioners and solicits reviews of important recent books from recognized experts. Most student writing takes the form of Notes, Recent Cases, Recent Legislation, and Book Notes. This current issue of the Review is November 2011, the first issue of academic year 2011-2012 (Volume 125). The November issue is the special annual review of the Supreme Court's previous term. Each year, the issue is introduced by noteworthy and extensive articles from recognized scholars. In this issue, the Foreword is authored by Dan Kahan, and examines the idea of "neutral" judicial review and the Supreme Court's methodology of constitutional decisionmaking and establishment of precedent, as well as the problem of motivated cognition, particularly in light of notable cases from the 2010 Term. An article by Judith Resnik offers an extensive Comment on three recent notable cases: Wal-Mart v. Dukes, AT&T v. Concepcion, and Turner v. Rogers. In addition, the first issue of each new volume provides an extensive summary of the important cases of the previous Supreme Court docket, on a wide range of legal, political and constitutional subjects. This issue surveys, in a series of case notes, the 2010 Term. Finally, the issue includes statistical summaries and tables of the 2010 Term, and recent book notes.

Information and Communication Security May 12 2022 This book constitutes the refereed proceedings of the 13th International Conference on Information and Communications Security, ICICS 2011, held in Beijing, China, in November 2011. Constructing the Welfare State in the British Press Jul 14 2022 Analysing political discourse in the British press during a time of crisis and austerity, this book examines how the concept of the welfare state has been constructed between 2008 and 2015. At a time when the financial crisis and government policies have put the welfare state under increased pressure, a corpus from four British newspapers from across the political spectrum - the Guardian, Daily Mirror, Daily Mail, and Daily Telegraph - is brought together to investigate the political debate on its evaluation and the ambiguity about its exact definition. Combining two theoretical approaches, Malgorzata Paprota outlines the figurative models and scenarios relevant to this element of the political system. The discourse-historical approach to discourse analysis is used to establish what the welfare state is, tracing the boundaries of the concept and which elements of political reality are explicitly associated with it. Conceptual metaphor theory is then used to explore the figurative conceptualisations of the welfare state. Together, this book shows the discursive construction, and shifting boundaries and metaphors, of the welfare state by the British press and its use in current political debates.

Internal Combustion Engines Aug 15 2022 This book contains the papers of the Internal Combustion Engines: Performance fuel economy and emissions conference, in the IMechE bi-annual series, held on the 29th and 30th November 2011. The internal combustion engine is produced in tens of millions

per year for applications as the power unit of choice in transport and other sectors. It continues to meet both needs and challenges through improvements and innovations in technology and advances from the latest research. These papers set out to meet the challenges of internal combustion engines, which are greater than ever. How can engineers reduce both CO2 emissions and the dependence on oil-derivate fossil fuels? How will they meet the future, more stringent constraints on gaseous and particulate material emissions as set by EU, North American and Japanese regulations? How will technology developments enhance performance and shape the next generation of designs? This conference looks closely at developments for personal transport applications, though many of the drivers of change apply to light and heavy duty, on and off highway, transport and other sectors. Aimed at anyone with interests in the internal combustion engine and its challenges The papers consider key questions relating to the internal combustion engine

Love Is a Canoe Mar 30 2021 A New York Times Book Review Editors ' Choice, Ben Schrank ' s Love Is a Canoe is a smart, funny, romantic, and hugely satisfying novel about the fragility of human relationships and a heartwarming reminder of what it really means to be good to those we love. The author of a

classic self-help guide to love and relationships, Peter Herman has won the hearts of romantics and cynics alike. But decades have passed since *Marriage Is a Canoe* was published and a recently widowed Peter begins to question his own advice. Much to his chagrin, he receives a call from Stella Petrovic, an ambitious young editor in New York City who forces him to reconsider his life ' s work, not to mention the full force of his delusions. The book ' s fiftieth anniversary is approaching, and Petrovic has devised a contest to promote the new edition. The prize? The chance for the winning couple—a pair of outwardly happy Brooklynites named Emily and Eli—to save their relationship by spending a weekend with the reclusive author. If Peter is going to help the contest ' s winners, he must discover what he meant when he wrote *Marriage Is a Canoe*—and also find a way for himself to love again...
