One of them is Suwa Yorishige, an ally of the Hojo clan and lord of Suwa Province. The slightly odd Yorishige also claims to be clairvoyant and foretells that Tokiyuki will one day become the ruler of Japan. But for the moment, escaping from enemy territory is the priority! -- VIZ Media
The Murder, Betrayal, and Slaughter of the Glorious Charles, Count of Flanders Oct 19 2019 In 1127 Charles the Good, count of Flanders, was surrounded by assassins while at prayer and killed by a sword blow to the forehead. His murder upset the fragile balance of power between England, France, and the Holy Roman Empire, giving rise to a bloody civil war while impacting the commercial life of medieval Europe. The eyewitness account by the Flemish cleric Galbert of Bruges of the assassination and the struggle for power that ensued is the only journal to have survived from twelfth century Europe. This new translation by medieval studies expert Jeff Rider greatly improves upon all previous versions, substantially advancing scholarship on the Middle Ages while granting new life and immediacy to Galbert's well informed and courageously candid narrative.

Lamb to the Slaughter and other stories Feb 27 2023 «And now, she told herself as she hurried back, all she was doing now, she was returning home to her husband and he was waiting for his supper ; and if, when she entered the house, she happened to find anything unusual, or tragic, or terrible, then naturally it would be a shock and she'd become frantic with grief and horror. Mind you, she wasn't expecting to find anything. She was just going home with the vegetables.» *Lamb to the Slaughter / The Way up to Heaven / The Landlady / William and Mary*

Lamb to the Slaughter Oct 31 2020 "A well-crafted tale of murder begotten by the collision of two incompatible worlds." -Kirkus Reviews Some Amish communities aren't so cozy. The death of a teenage Amish girl in a cornfield looks like an accident, but sheriff Serenity Adams suspects foul play. To solve the murder, she must investigate the nearby Amish community with the help of a man who was shunned years ago. At first glance, the case seems obvious. The poor girl was probably accidentally shot during hunting season, but when the elders of the Amish community and even the girl's parents react with uncaring subdued behavior, Serenity becomes suspicious. As she delves deeper into the secretive community that she grew up beside, she discovers a gruesome crime from the past that may very well be related to the Amish girl's shooting. Serenity's persistence leads her to a stunning discovery that not only threatens to destroy her blossoming romance with Daniel Bachman, but may even take her life in the end.

[Basking Sharks](#) Feb 03 2021 The basking shark, a fish the size of a London bus, used to appear off the BC coast every spring. During World War II, the fish became a nuisance to commercial nets and fishing trollers. Gliding just below the surface, the basking shark was an easy target for a new pest eradication program that touted killing one of the plankton-eating monsters as great sport. By 1970, the basking shark was virtually eradicated in BC. Now researchers Scott Wallace and Brian Gisborne have pieced together what there is to know about this locally extinct ocean denizen. *Basking Sharks* is Number 14 in the Transmontanus series of books edited by Terry Glavin.

Wolf to the Slaughter Aug 21 2022 "[Rendell is] undoubtedly one of the best writers of English mysteries and chiller-killer plots."—Los Angeles Times It was better than a hotel, this anonymous room on a secluded side street of a small country town. No register to sign, no questions asked, and for five bucks a man could have three hours of undisturbed, illicit lovemaking. Then one evening a man with a knife turned the love nest into a death chamber. The carpet was soaked with blood -- but where was the corpse? Meanwhile, a beautiful, promiscuous woman is missing—along with the bundle of cash she'd had in her pocket. The truth behind it all will keep even veteran mystery fans guessing through the very last page. Praise for Wolf to the Slaughter "The best mystery writer anywhere in the English-speaking world."—The Boston Globe "You cannot afford to miss Ruth Rendell."—The New York Times Book Review "For readers who have almost given up on mysteries . . . Rendell may be just the woman to get them started again."—Ellery Queen's Mystery Magazine

Every Twelve Seconds Jul 28 2020 This is an account of industrialized killing from a participant's point of view. The author, political scientist Timothy Pachirat, was employed undercover for five months in a Great Plains slaughterhouse where 2,500 cattle were killed per day—one every twelve seconds. Working in the cooler as a liver hanger, in the chutes as a cattle driver, and on the kill floor as a food-safety quality-control worker, Pachirat experienced firsthand the realities of the work of killing in modern society. He uses those experiences to explore not only the slaughter industry but also how, as a society, we facilitate violent labor and hide away that which is too repugnant to contemplate. Through his vivid narrative and ethnographic approach, Pachirat brings to life massive, routine killing from the perspective of those who take part in it. He shows how surveillance and sequestration operate within the slaughterhouse and in its interactions with the community at large. He also considers how society is organized to distance and hide uncomfortable realities from view. With much to say about issues ranging from the sociology of violence and modern food production to animal rights and welfare, Every Twelve Seconds is an important and disturbing work.

Justice and the Slaughter Bench Dec 13 2021 In this follow-up to *Law and the Beautiful Soul*, Alan Norrie addresses the split between legal and ethical judgment. Shaped by history, law's formalism both eschews and requires ethics. The first essays consider legal form in its practical aspect, and the ethical problems encountered ('law's architectonic'). The later essays look at the complex underlying relation between law and ethics ('law's constellation'). In Hegel's philosophy, legal and ethical judgment are brought together in a rational totality. Here, the synthesis remains unachieved, the dialectic systematically 'broken'. These essays cover such issues as criminal law's 'general part', homicide reform, self-defence, euthanasia, and war guilt. They interrogate legal problems, consider law's method, and its place in the social whole. The analysis of law's historicity, its formalism and its relation to ethics contributes importantly to central questions in law, legal theory and criminal justice.

The Slaughter Jul 20 2022 The inside story of China's organ transplant business and its macabre connection with internment camps and killing fields for arrested dissidents, especially the adherents of Falun Gong. Mass murder is alive and well. That is the stark conclusion of this comprehensive investigation into the Chinese state's secret program to get rid of political dissidents while profiting from the sale of their organs--in many cases to Western recipients. Based on interviews with top-ranking police officials and Chinese doctors who have killed prisoners on the operating table, veteran China analyst Ethan Gutmann has produced a riveting insider's account--culminating in a death toll that will shock the world. Why would the Chinese leadership encourage such a dangerous perversion of their medical system? To solve the puzzle, Gutmann journeyed deep into the dissident archipelago of Falun Gong, Tibetans, Uighurs and House Christians, uncovering an ageless drama of resistance, eliciting confessions of deep betrayal and moments of ecstatic redemption. In an age of compassion fatigue, Gutmann relies on one simple truth: those who have made it back from the gates of hell have stories to tell. And no matter what baggage the reader may bring along, their preconceptions of China will not survive the trip.
