"Moonwatch Only is certainly one of the best books ever written about a single watch model." - William Massena - Timezone.com "It is an indescribable reference work and a true must-have for every Speedmaster collector." - Forbes "This book sets a new standard. Not only for books on the Omega Speedmaster, but for watch books in general. I've never seen anything like it, and believe me when I tell you that I could fill an impressive sized wall with books on watches. Authors of other books or publishers should take a look at Moonwatch Only as well to see how it should be done." - Robert Jan Broer - FratelloWatches "The OMEGA Speedmaster Professional - the Moonwatch - has done things that no other timepiece has done and it's been worn in places that only a few human beings have been." - Captain Eugene Cernan, 'Last man on the moon' There are very few timepieces in the world that deserve a definitive and comprehensive book such as this one. The OMEGA Speedmaster Professional Moonwatch is one of them. Initially designed for automobile racing teams and engineers, the Omega Speedmaster embarked on a very different trajectory when NASA chose it

to accompany astronauts heading for the Moon in 1965. Its involvement in the space adventure has propelled the Moonwatch to the top of the list of celebrated timepieces. After years of research and observation, the authors present a complete panorama of the Moonwatch in a systematic work that is both technical and attractive, making it the inescapable reference book for this legendary watch. This third edition marking the 60th anniversary of the Speedmaster has been enriched with numerous new features including a 16-page gallery of astronauts and their Speedmaster, QR codes to extend your exploration and a detailed story of a vintage Speedmaster. If Tom Sawyer and Huck Finn had come of age at the end of the 20th century looking for an all-American adventure, they probably would've headed for Vegas. They'd have been hard-pressed to go on a wilder ride than the one taken by Tom Breitling and Tim Poster to the top of the famed Golden Nugget Hotel & Casino. Call them the Odds Couple. Breitling is the kid who lives next door if you grow up in Burnsville, Minnesota. He never saw a hundred dollar bill or The Godfather until he went to college. Poster comes from a family of oddsmakers who reach for the Doritos on football Sundays and scream for the point spread. He was whistling Sinatra and booking games at his Las Vegas high school. Their unlikely friendship began in college over an \$8 veal parmigiana sandwich that led to a partnership in a hotel reservation business. Starting with a desk, a chair, a pillow, and a telephone, Tim and Tom grew a company that they sold during the dot.com boom for \$105 million. This allows Tim to pursue his childhood dream of owning a casino and bringing back the glory days of Vegas. When Tim ups the odds and raises the limits to give gamblers the best game in town, a craps player nicknamed "Mr. Royalty," who's on one of the hottest winning streaks in history, heads for The Nugget. When he begins to take Tom and Tim for millions, the partnership is put to the test. But Tim refuses to back off on the odds or the high limits, telling his partner, "It's a ballsy proposition here. It's gonna

be a roller coaster ride. But we don't have a public company to answer to. It's just you and me." When Mr. Royalty rolls twenty-two consecutive passes and rakes in a mountain of chips, he takes Tim and Tom to the brink. They must figure out a way to hold up The House. Just as they do, the roller coaster ride really gets rolling—and the ride becomes crazier than they'd ever imagined. From their forms to their movements, Cartier watches are unique. They are an enduring combination of the unexpected and the classical. This book chronicles Cartier's constant quest for excellence in the manufacture of complicated watches. From a Tortue single push-piece chronograph, created in 1929, to a contemporary Santos 100 skeleton watch, Cartier interprets complications in its own inimitable way, always with a sense of design. Laziz Hamanis' photographs capture these objects of exceptional technicality while author and expert Jack Forster shares the spirit that motivates each craftsman, engineer and artist to create the most stunning complicated watches. Lavish luxury products and experiences around the globe. An ideal gift book for men or a source of gift inspiration. The Alcalde serves as an intellectual crossroads where UT's luminaries - artists, engineers, executives, musicians, attorneys, journalists, lawmakers, and professors among them - meet bimonthly to exchange ideas. Its pages also offer a place for Texas Exes to swap stories and share memories of Austin and their alma mater. The magazine's unique name is Spanish for "mayor" or "chief magistrate"; the nickname of the governor who signed UT into existence was "The Old Alcalde." "I've paged through stacks of books on the history of watches. . . . But I hadn't come across a book that actually moved me until I picked up A Man and

His Watch. The volume is filled with heartfelt stories.” —T: The New York Times Style Magazine Paul Newman wore his Rolex Daytona every single day for 35 years until his death in 2008. The iconic timepiece, probably the single most sought-after watch in the world, is now in the possession of his daughter Clea, who wears it every day in his memory. Franklin Roosevelt wore an elegant gold Tiffany watch, gifted to him by a friend on his birthday, to the famous Yalta Conference where he shook the hands of Joseph Stalin and Winston Churchill. JFK’s Omega worn to his presidential inauguration, Ralph Lauren’s watch purchased from Andy Warhol’s personal collection, Sir Edmund Hillary’s Rolex worn during the first-ever summit of Mt. Everest . . . these and many more compose the stories of the world’s most coveted watches captured in *A Man and His Watch*. Matthew Hranek, a watch collector and NYC men’s style fixture, has traveled the world conducting firsthand interviews and diving into exclusive collections to gather the never-before-told stories of 76 watches, completed with stunning original photography of every single piece. Through these intimate accounts and Hranek’s storytelling, the watches become more than just timepieces and status symbols; they represent historical moments, pioneering achievements, heirlooms, family mementos, gifts of affection, and lifelong friendships. *The Story of the First-Ever Round-the-World Balloon Flight As Told by the Pilots* "Both of us were being driven on by a colossal charge of hope, which sometimes became so strong that we had to take deep breaths and physically choke it down. The important thing, now, was to concentrate and not make any mistakes." — Brian Jones, March 4, flying over the Sahara Desert "This is exactly my definition of adventure...a point at which you cannot avoid confronting the unknown, so that you have to dig inside yourself to find the courage and resources to deal with what may lie ahead, and to succeed." — Bertrand Piccard, diary entry March 10, heading out over the Pacific Every year brings hundreds of new wristwatch designs, with

NATIONAL BEST SELLER A stunning, personal memoir from the astronaut and modern-day hero who spent a record-breaking year aboard the International Space Station—a message of hope for the future that will inspire for generations to come. The veteran of four spaceflights and the American record holder for consecutive days spent in space, Scott Kelly has experienced things very few have. Now, he takes us inside a sphere utterly hostile to human life. He describes navigating the extreme challenge of long-term spaceflight, both life-threatening and mundane: the devastating effects on the body; the isolation from everyone he loves and the comforts of Earth; the catastrophic risks of colliding with space junk; and the still more haunting threat of being unable to help should tragedy strike at home—an agonizing situation Kelly faced when, on a previous mission, his twin brother's wife, American Congresswoman Gabrielle Giffords, was shot while he still had two months in space. Kelly's humanity, compassion, humor, and determination resonate throughout, as he recalls his rough-and-tumble New Jersey childhood and the youthful inspiration that sparked his astounding career, and as he makes clear his belief that Mars will be the next, ultimately challenging, step in spaceflight. In *Endurance*, we see the triumph of the human imagination, the strength of the human will, and the infinite wonder of the galaxy. New

York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. Pull on your wellies, grab your flat cap and join Jeremy Clarkson in this hilarious and fascinating behind-the-scenes look at the infamous Diddly Squat Farm THE NO. 1 SUNDAY TIMES BESTSELLER 'Brilliant . . . laugh-out-loud' Daily Telegraph 'Outrageously funny . . . will have you in stitches' Time Out _____ Welcome to Clarkson's farm. It's always had a nice ring to it. Jeremy just never thought that one day his actual job would be 'a farmer'. And, sadly, it doesn't mean he's any good at it. From buying the wrong tractor (Lamborghini, since you ask . . .) to formation combine harvesting, getting tied-up in knots of red tape to chasing viciously athletic cows, our hero soon learns that enthusiasm alone might not be enough. Jeremy may never succeed in becoming master of his land, but, as he's discovering, the fun lies in the trying . . . _____ 'Very funny . . . I cracked up laughing on the tube' Evening Standard Praise for Clarkson's Farm: 'The best thing Clarkson's done . . . it pains me to say this' GUARDIAN 'Shockingly hopeful' INDEPENDENT 'Even the most committed Clarkson haters will find him likeable here' TELEGRAPH 'Quite lovely' THE TIMES - The first complete book dedicated to one of the most desirable chronographs of the 1960s, Chronomaster Aviator Sea Diver by NIVADA & CROTON Chronomaster Aviator Sea Diver: this singular name belongs to one of the most original professional watches of the 1960s, combining an unparalleled number of functions with a timeless design. Created in 1961, this chronograph was produced for around ten years under several brand names, through a partnership between the Swiss company NIVADA SA and the American firm

CROTON WATCH CO. This led to some of its dials bearing probably the most complicated name in watchmaking history: CROTON NIVADA GRENCHEM Chronomaster Aviator Sea Diver. Thanks to the authors' trademark rigorous methodology, the signature of the 'ONLY' reference works, this book reveals the incredible diversity of the Chronomaster models. It is intended both as an initiation for connoisseurs of exceptional watches and as a reference guide for collectors. This legendary watch will doubtless thus regain the place it deserves among the most desirable 1960s chronographs. Also available in the series: Moonwatch Only ISBN 9782940506170 Flightmaster Only ISBN 9782940506200 Men's Health magazine contains daily tips and articles on fitness, nutrition, relationships, sex, career and lifestyle. In this stunning new addition to the Assouline series, British historian Nicholas Foulkes has selected the 100 breakthrough timepieces of the twentieth century. Featuring illustrious names such as Audemars Piguet, Blancpain, Jaeger-LeCoultre, Patek Philippe, Rolex, and Tag Heuer, this collection includes the 1915 Omega Lawrence of Arabia aviator chronograph, the 1962 Breitling Navitimer Cosmonaut, and the 1985 Ulysse Nardin Astrolabium. Beautiful timepieces invite us to join a story, and these examples unfold the narrative of one of the most dynamic periods in human history. In thirteen electrifying stories, our very first all-Latin-American issue takes on the crime story as a starting point, and expands to explore contemporary life from every angle—swinging from secret Venezuelan prisons to Uruguayan resorts to blood-drenched bedrooms in Mexico and Peru, and even, briefly, to Epcot Center and the Havana home of a Cuban transsexual named Amy Winehouse. Featuring contemporary writers from ten different countries—including Alejandro Zambra, Juan Pablo Villalobos, Andres Ressa Colino, Mariana Enriquez, and many more—McSweeney's 46 offers an essential cross-section of the troubles and temptations confronting the region today. It's crucial reading for anyone interested in the

shifting topography of Latin American literature and Latin American life, and a collection of writing to rival anything we've assembled in years. The Watch is the most popular book on vintage and contemporary mechanical watches, appealing to both beginners and experts. In the decade since it was published, the international audience of watch lovers and watch collectors has grown exponentially. It's time for The Watch, Thoroughly Revised. For this new edition, the original author, Gene Stone, is joined by Stephen Pulvirent of Hodinkee.com. Together, they have thoroughly revamped the book to reflect the current state of the watch world, with the addition of new brands, new models, and more focused and nuanced coverage of the traditional brand leaders, including Rolex, Patek Philippe, Omega, and TAG Heuer.
