Special Forces Combat Recon Manual Nov 10 2021 Project Delta - Origins of LRRP, Recondo in Vietnam This document collection includes the original 1970 Combat Recon Manual by Project Delta. It also includes the Special Forces updated version from 1995, and a third book on WW2 Jungle Fighting. Project DELTA was the first of the four Special reconnaissance (SR) units with a Greek letter formed by the U.S. Military Assistance Command, Vietnam (MACV) during the Vietnam War to collect operational intelligence in remote areas of South Vietnam. Project DELTA was established at Nha Trang in 1964 and consisted of six reconnaissance hunter-killer teams each composed of two United States Special Forces (USSF) and four Army of the Republic of Vietnam Special Forces (LLDB) and later supported by the 91st Ranger battalion. It was designated Detachment B-52, 5th Special Forces Group. DELTA's mission included operational and

strategic reconnaissance into long-held Viet Cong areas and the direction of air strikes on them. They were also to conduct bomb damage assessment, conduct small scale reconnaissance and hunter-killer operations, capture and interrogate VC / NVA, tap communications, bug compounds and offices, rescue downed aircrew and prisoners of war, emplace point minefields and other booby traps, conduct psychological operations, and perform counter intelligence operations. They were to focus on base areas and infiltration routes in the border areas. During its storied history, Project DELTA captured or destroyed numerous major enemy installations and supply routes. It was awarded numerous honors including the Valorous Unit Award, RVN Cross of Gallantry, RVN Civil Actions Honor Medal (PC) and the Navy Unit Commendation Ribbon. Project DELTA was deactivated in June of 1970. The successful Long Range Reconnaissance Patrol (LRRP) training program was originally established by Detachment B-52 of the 5th Special Forces Group (Project Delta). The Project Delta course was first established in May 1964 and would eventually evolve into the famous Vietnam RECONDO school. BONUS book: This ebook collection also contains a historical report on Jungle Warfare, written in 1942 just months into the Guadalcanal campaign during World War II. Via interviews with front lines Marines and Army soldiers it goes into great details of how

the Japanese fought, weapons and tactical reports with specifics on what worked and what didn't. This no holds-barred feedback help U.S. military adapt and supply what our troops needed to succeed in the jungle of the Pacific war. Of note is comments from a one, Lt. Col. L.B. Fuller, the legendary 'Chesty' Fuller of Marine Corp fame to this very day.
