In recent years, promotional campaigns for paper products have become a showcase for the best and brightest talents in graphic design. In this new publication, Graphis reviews several years of the most creative promotions from paper companies around the world. Statistics, 2nd Edition teaches statistics with a modern, data-analytic approach that uses graphing calculators and statistical software. It allows more emphasis to be put on statistical concepts and data analysis rather than following recipes for calculations. This gives readers a more realistic understanding of both the theoretical and practical applications of statistics, giving them the ability to master the subject. Contains papers from five separate symposia of the 194th Meeting of the Electrochemical Society in Boston, Massachusetts, in November 1998. Papers reflect recent findings in aqueous batteries, battery applications, batteries for the 21st century, corrosion in batteries and fuel cells, and exploratory research and development of batteries and supercapacitors for electric and hybrid vehicles. Specific topics include nickel hydroxide and manganese dioxide electrode materials and compositions in primary and rechargeable batteries, power source modeling and performance, novel high voltage cathode materials, microbatteries, and lithium polymer electrolyte batteries. Annotation copyrighted by Book News, Inc., Portland, OR Geared entirely to Excel 2013, PRACTICAL MANAGEMENT SCIENCE, 5e helps students understand and take full advantage of the power of spreadsheet modeling. It integrates modeling into all functional areas of business--finance, marketing, operations management--using real examples and real data. Emphasizing applied, relevant learning, the text presents just the right amount of theory to ensure students understand the foundation of the topic, followed by exercises that give them practical, hands-on experience with the methodologies. It focuses on modeling over algebraic formulations and memorization of particular models. The Fifth Edition includes the latest changes in the accompanying @RISK and PrecisionTree add-ins, incorporates BigPicture diagrams of spreadsheet models into the optimization chapters, and provides new and updated cases throughout. The online Chapter 16: Multiobjective Decision Making is now more conceptual, while Chapter 9: Decision Making Under Uncertainty extends a single new product decisions example throughout the chapter.
