An introduction to teaching elementary and junior-high school mathematics, it incorporates recommendations of the NCTM. Focuses on the "how" and "why" of each mathematical topic, with stress on good pedagogy and development of problem-solving skills. The Second Edition contains a new chapter on the Logo computer language. References to NCTM standards now appear in every chapter and there are many new problems. What to do when you ask, seek, and knock--and nothing happens. Mosley addresses some of the unanswered questions and personal dilemmas we've all faced in our prayer lives. You'll learn how to break your big requests into small steps, how to become part of the process of answered prayer, and how to pray for what God can do rather than continually focusing on personal failure. Dinosaurs are fascinating creatures that kids simply adore, and even the youngest believer can recite the biblical story of Noah and his ark. Now discover how to answer some of kids' most interesting questions about dinosaurs and Noah's ark like: How did all the dinosaurs fit on the ark? How did Noah keep the animals on the ark from eating each other and his family? Where did all the water go after the Flood? Why aren't there fossils of humans from Noah's flood? Answers are important. If children aren't given answers to their questions about the Bible and the history it reveals, they cannot defend their faith against a secular worldview in a fallen world.
