Schools remain notorious for co-opting digital technologies to «business as usual» approaches to teaching new literacies. DIY Media addresses this issue head-on, and describes expansive and creative practices of digital literacy that are increasingly influential and popular in contexts beyond the school, and whose educational potential is not yet being tapped to any significant degree in classrooms. This book is very much concerned with engaging students in do-it-yourself digital mediated meaning-making practices. As such, it is organized around three broad areas of digital media: moving media, still media, and audio media. Specific DIY media practices addressed in the chapters include machinima, anime music videos, digital photography, podcasting, and music remixing. Each chapter opens with an overview of a specific DIY media practice, includes a practical how-to tutorial section, and closes with suggested applications for classroom settings. This collection will appeal not only to educators, but to anyone invested in better understanding and perhaps participating in - the significant shift towards everyday people producing their own digital media.

From New York Times and USA Today bestselling author Jana DeLeon, the fifth book in the hilarious Miss Fortune series. Things are starting to look up for Fortune Redding. Even though her life was at stake, the CIA assassin had balked at taking on a new identity in Sinful, Louisiana. But instead of hating it like she'd thought she would, Fortune now has friends she cares about and just finished up an incredible first date with the sexiest deputy in the state. Sure, there's been a murder or two that she's gotten mixed up in since she arrived in town, but she's hoping all of that is behind her. But when someone almost kills Deputy Carter LeBlanc, Fortune tosses her dreams of peace and quiet into the muddy bayou and shifts back into being the deadly trained professional she is. With the help of Ida Belle and Gertie, Fortune launches a manhunt, intending to find a killer before he tries again.

Shade: Girl on a hero's journey, going from smart-ass to badass. Thanks to her offbeat mother, Shade's full name is Galactic Shade Griffin. Having a name like that while being the new girl in school is pretty much catnip for bullies. The summer before Shade's junior year of high school, her mother breaks up with yet another boyfriend and moves them once again to a new town. This time, they move into a dilapidated old house where Shade has an entire attic bedroom to herself. At least until she discovers it's haunted by the ghost of a teenaged boy named Brahm Yates. When Shade's best friend goes missing, her life becomes even more

complicated. With the help of Brandon who's struggling with his own issues in the world beyond, Shade faces the question of whether or not she has what it takes to become a true hero. Although this novel deals with a number of serious issues—and alcohol abuse, cutting, and disturbing world events—it's primarily a novel about a teenaged girl finding out who she really is and that she's capable of so much more than she ever thought possible. I show you in this book how to change those negative thoughts that's destroying your life. I teach you how to think to prosper and have all the money you desire. God is your supplier and is ready to supply all of your needs. Don't date your students' single fathers. It's an obvious rule. It leads to complications. And it's a rule I've never broken, nor even been tempted to break. I mean, for one thing, I don't date. Not for lack of trying, but I'm just too damaged. My heart is too broken. Riley Kerr, however, isn't my student. She's in second grade, and she's the sweetest, most darling young girl I've ever met. So when my path begins crossing her father's, it's complicated. Rory Kerr is...handsome. Roughly hewn. Solitary. But such a kind and loving father. And not the father of one of my students. He's not really off-limits. Except that of my broken heart. Which he seems to just...effortlessly mend, piece by piece, without even realizing it. The holidays are approaching, and I usually spend them with my dysfunctional family back in Colorado. It's not something I look forward to. But they're all I have, so my Christmases are always spent there, with them. This year, the blooming something

between Rory and me has me wondering... maybe this year I'll be spending Christmas in Connecticut. "First off, I didn't mean to kill my Dad." Sam Croker did just that and yet it was the least of his problems. Crash-landed and alone in the South American rainforest, kilometers from anywhere, with no equipment or survival skills would be the ultimate challenge for almost anyone. But Sam has been paraplegic for years. He can't walk. Has no feeling in his legs. Has no food, and no means to obtain it. If he lasts three days without being drowned, poisoned, or eaten it will be a miracle. That miracle arrives from two unexpected directions—a hideous face carved into a tree which invades Sam's fevered mind as if it were alive and the disabled girl who worships it as her God—and so the first glimmers of possible rescue begin to shine. But the Kik wants to keep Sam for herself and drug smugglers want to hunt down and kill them all. Tree Face and the Cripple is a story of survival against the odds and an awkward, unlikely friendship based on profound misunderstandings. It is both a high-action suspense thriller with a shattering climax, and a spiritual journey for Sam from bitter, defeated, spoiled, rich kid, into someone altogether stronger. We could be, if Sam lives that long. A phone-obsessed twelve-year-old girl, frustrated by the cryptic boys in her life, discovers a magic app that can read boys' thoughts in this modern-day retelling of Emma by Jane Austen. History taught at the elementary, middle, high school and even college levels often excludes significant events from African American history, such as the murder of Emmett Till or the murder of four black girls by the Ku Klux Klan in the Sixteenth Street Baptist Church bombing in Birmingham. Such events are integral parts of history that continue to inform America's racial politics. Their exclusion is a problem that this work addresses by bringing more visibility to documentary films focusing on the events. Books that treat the history of documentary films follow a similar pattern, omitting the efforts of filmmakers who have continued to focus on African American history. This book works to make documentary discourse more complete, bringing attention to films that cover the African American experience in four areas--civil rights, sports, electronic media, and the contemporary black struggle--demonstrating how the issues continue to inform America's racial politics. A unique kind of love story. In this third book of the "Light Trilogy", Jinna Dodds knows that there is something vital which is still missing from her life.
