[Prehistory in Peril](#) Jan 22 2020 Prehistory in Peril is the first accurate account of the early period of archaeological study of the Durango area. The area, still rife with unexplored sites, drew many self-trained amateurs and pothunters. As more and more historically significant artifacts were found, bitter confrontation and animosity developed between professionals and enthusiasts. Prehistory in Peril follows this fascinating drama and reevaluates data from two prominent archaeologists of that time, Earl Morris and Robert Burgh, and takes into account more recent research to draw new conclusions about the prehistoric cultural patterns revealed in the southern Colorado area of Durango.

Enlightened Immunity Dec 21 2019 In eighteenth-century Mexico, outbreaks of typhus and smallpox brought ordinary residents together with administrators, priests, and doctors to restore stability and improve the population's health. This book traces the monumental shifts in preventive medicine and public health measures that ensued. Reconstructing the cultural, ritual, and political background of Mexico's early experiments with childhood vaccines, Paul Ramírez steps back to consider how the design of public health programs was thoroughly enmeshed with religion and the church, the spread of Enlightenment ideas about medicine and the body, and the customs and healing practices of indigenous villages. Ramírez argues that it was not only educated urban elites—doctors and men of science—whose response to outbreaks of disease mattered. Rather, the cast of protagonists crossed ethnic, gender, and class lines: local officials who decided if and how to execute plans that came from Mexico City, rural priests who influenced local practices, peasants and artisans who reckoned with the consequences of quarantine, and parents who decided if they would allow their children to be handed over to vaccinators. By following the multiethnic and multiregional production of medical knowledge in colonial Mexico, Enlightened Immunity explores fundamental questions about trust, uncertainty, and the role of religion in a moment of discovery and innovation.

Jesuits in the North American Colonies and the United States Apr 24 2020 From Eusebio Kino to Daniel Berrigan, and from colonial New England to contemporary Seattle, Jesuits have built and disrupted institutions in ways that have fundamentally shaped the Catholic Church and American society. As Catherine O'Donnell demonstrates, Jesuits in French, Spanish, and British colonies were both evangelists and agents of empire. John Carroll envisioned an American church integrated with Protestant neighbors during the early years of the republic; nineteenth-century Jesuits, many of them immigrants, rejected Carroll's ethos and created a distinct Catholic infrastructure of schools, colleges, and allegiances. The twentieth century involved Jesuits first in American war efforts and papal critiques of modernity, and then (in accord with the leadership of John Courtney Murray and Pedro Arrupe) in a rethinking of their relationship to modernity, to other faiths, and to earthly injustice. O'Donnell's narrative concludes with a brief discussion of Jesuits' declining numbers, as well as their response to their slaveholding past and involvement in clerical sexual abuse. Oonga Boonga Mar 24 2020 A whole new look for this enduring Scholastic Canada Classic! An updated look for a classic story, written and illustrated by two of the top names in Canadian children's books! Daniel's family has a little problem. Daniel's baby sister, Louise, just won't stop crying. Everyone in the family tries to soothe her. Her mother sings a lullaby; her father rocks her in his arms; Grandma gives her a bottle; Grandpa plays a tune on his harmonica. But nothing works! Little Louise just goes on crying until big brother Daniel appears on the scene and tells her, "Oonga Boonga." Like magic, Louise's tears stop. But the funny thing is, these whimsical words don't work when the grown-ups say them. Daniel has the magic touch with his little sister!

Historical Linguistics Mar 04 2021 This accessible, hands-on text not only introduces students to the important topics in historical linguistics but also shows them how to apply the methods described and how to think about the issues; abundant examples and exercises allow students to focus on how to do historical linguistics. Distinctive to this text is its integration of the standard topics with others now considered important to the field, including syntactic change, grammaticalization, sociolinguistic contributions to linguistic change, distant genetic relationships, areal linguistics, and linguistic prehistory. Examples are taken from a broad range of languages; those from the more familiar English, French, German, and Spanish make the topics more accessible, while those from non-Indo-European languages show the depth and range of the concepts they illustrate. This second edition features expanded explanations and examples as well as updates in light of recent work in linguistics, including a defense of the family tree model, a response to recent claims on lexical diffusion/frequency, and a section on why languages diversify and spread.

The Salmon Sisters: Feasting, Fishing, and Living in Alaska Jun 07 2021 The bright and inspiring life and work story from a pair of sisters who are Alaskan fisherwomen, along with fifty hearty and comforting recipes that honor wild foods from the sea and the shore. Share in the remarkable and wild lives of Emma Teal Laukitis and Claire Neaton, the Salmon Sisters, who grew up on a homestead in the Aleutians where the family ran a commercial fishing boat in the Alaskan sea. Their book reveals this outward-bound lifestyle of natural bounty, the honest work on a boat's deck, and the wholesome food that comes from local waters and land. Here are creative and simple ways to enjoy wild salmon, halibut, and spot prawns. The sisters are committed to sustaining and celebrating the seafaring community in Alaska, and their business of selling products related to and from the ocean donates a can of wild-caught fish to local food banks for each item purchased.

Launch (Updated & Expanded Edition) Apr 17 2022 From the creator of Product Launch Formula: A new edition of the #1 New York Times best-selling guide that's redefined online marketing and helped countless entrepreneurs make millions. The revised and updated edition of the #1 New York Times bestseller Launch will build your business - fast. Whether you've already got an online business or you're itching to start one, this is a recipe for getting more traction and a fast start. Think about it: What if you could launch like Apple or the big Hollywood studios? What if your prospects eagerly counted down the days until they could buy your product? And you could do it no matter how humble your business or budget? Since 1996, Jeff Walker has been creating hugely successful online launches. After bootstrapping his first Internet business from his basement, he quickly developed a process for launching new products and businesses with unprecedented success. And once he started teaching his formula to other entrepreneurs, the results were simply breathtaking. Tiny, home-based businesses started doing launches that brought in tens of thousands, hundreds of thousands, and even millions of dollars. Whether you have an existing business or you're starting from scratch, this is how you start fast. This formula is how you engineer massive success. Now the question is this: Do you want to start slow, and fade away from there? Or are you ready for a launch that will change the future of your business and your life?

Intimacy from the Inside Out Feb 03 2021 Couples in distress enter therapy holding two goals that they now experience as mutually exclusive: to feel loved and to feel understood. Toni Herbine-Blank's powerful new brand of couple therapy, Intimacy from the Inside Out (IFIO), offers a comprehensive conceptual map for achieving both goals. In a tour de force of elegant case illustrations wrapped around clear instruction, this book shows the IFIO therapist working with the natural subdivisions – or parts – of the human mind in a dyad, guiding and supporting couples to understand how they project childhood injury into current relationships and then, feeling threatened, frustrated and angry, lose track of their underlying needs to feel safe, connected and loved. With a focus on generating internal attachment stability to sustain each partner through the moments when the other is unavailable, couples in IFIO therapy

reconnect with their essential needs, change their conversations and learn to make requests that invite rather than threaten in order to get those needs met.

The Wild Wisdom of Weeds Apr 05 2021 The Wild Wisdom of Weeds is the only book on foraging and edible weeds to focus on the thirteen weeds found all over the world, each of which represents a complete food source and extensive medical pharmacy and first-aid kit. More than just a field guide to wild edibles, it is a global plan for human survival. When Katrina Blair was eleven she had a life-changing experience where wild plants spoke to her, beckoning her to become a champion of their cause. Since then she has spent months on end taking walkabouts in the wild, eating nothing but what she forages, and has become a wild-foods advocate, community activist, gardener, and chef, teaching and presenting internationally about foraging and the healthful lifestyle it promotes. Katrina Blair's philosophy in *The Wild Wisdom of Weeds* is sobering, realistic, and ultimately optimistic. If we can open our eyes to see the wisdom found in these weeds right under our noses, instead of trying to eradicate an "invasive," we will achieve true food security. *The Wild Wisdom of Weeds* is about healing ourselves both in body and in spirit, in an age where technology, commodity agriculture, and processed foods dictate the terms of our intelligence. But if we can become familiar with these thirteen edible survival weeds found all over the world, we will never go hungry, and we will become closer to our own wild human instincts—all the while enjoying the freshest, wildest, and most nutritious food there is. For free! The thirteen plants found growing in every region across the world are: dandelion, mallow, purslane, plantain, thistle, amaranth, dock, mustard, grass, chickweed, clover, lambsquarter, and knotweed. These special plants contribute to the regeneration of the earth while supporting the survival of our human species; they grow everywhere where human civilization exists, from the hottest deserts to the Arctic Circle, following the path of human disturbance. Indeed, the more humans disturb the earth and put our food supply at risk, the more these thirteen plants proliferate. It's a survival plan for the ages. Including over one hundred unique recipes, Katrina Blair's book teaches us how to prepare these wild plants from root to seed in soups, salads, slaws, crackers, pestos, seed breads, and seed butters; cereals, green powders, sauerkrauts, smoothies, and milks; first-aid concoctions such as tinctures, teas, salves, and soothers; self-care/beauty products including shampoo, mouthwash, toothpaste (and brush), face masks; and a lot more. Whether readers are based at home or traveling, this book aims to empower individuals to maintain a state of optimal health with minimal cost and effort.

Instrument Procedures Handbook Jul 28 2020 This handbook supersedes FAA-H-8261 -16, Instrument Procedures Handbook, dated 2014. It is designed as a technical reference for all pilots who operate under instrument flight rules (IFR) in the National Airspace System (NAS). It expands and updates information contained in the FAA-H-8083-15B, Instrument Flying Handbook, and introduces advanced information for IFR operations. Instrument flight instructors, instrument pilots, and instrument students will also find this handbook a valuable resource since it is used as a reference for the Airline Transport Pilot and Instrument Knowledge Tests and for the Practical Test Standards. It also provides detailed coverage of instrument charts and procedures including IFR takeoff, departure, en route, arrival, approach, and landing. Safety information covering relevant subjects such as runway incursion, land and hold short operations, controlled flight into terrain, and human factors issues also are included.
