*Victorian Plymouth and Devonport Through the Magic Lantern May 06 2021 In the second half of the 19th century, Devon was a popular tourist destination, made accessible to all by the expanding railway network. Detailed guide books, such as Black's Guide to Devonshire, were available to help visitors make the most of their stay. Black's was updated each year and included historical facts about local towns and villages, where to stay, what to see and excursions to places of interest. This 50 page booklet combines text relating to Plymouth from Black's Guide, published in 1883, with photographs taken from 'magic lantern' projection slides owned by the Keasbury-Gordon Photograph Archive. It is in three parts. The first is a fascinating history and general description of Devonshire and the second a more detailed look at Plymouth and its environs. The text for both is taken from the 1883 guide-book. The third part comprises thirty five photographs (most taken between 1880 and 1910), many of which have probably not been published before. The Black's Guide text and the photographs complement each other and enable us to step back in time and visit Great Britain's most important, Victorian, naval seaport.*
