***Crafting Comparison Papers* Dec 20 2019** Since comparison papers require students to describe both similarities and differences, they are often used as assessment tools in just about every subject. For this reason alone, developing writers should be taught how to craft effective comparison papers. But teaching your students how to compose comparison papers also has a larger impact on their education--it prepares them to think more analytically, perform better in complex testing situations, and compare texts. In *Crafting Comparison Papers*, Marcia S. Freeman fully explains the four instructional steps that develop comparison skills: understanding the concept of attributes; organizing attributes for comparison; building clear, coherent comparative paragraphs; and assembling effective comparison papers. She includes lessons with specific Target Skills(TM) to support your students' progress, and she suggests timelines that will help you plan your curriculum. Throughout, Freeman's comprehensive approach and clear instructions make this book a unique and valuable resource for any teacher of developing writers.

***The Impact of Digital and Paper-based Graphic Organizers on the Persuasive Writing Process of Fourth and Fifth Grade Students Feb 26 2023* At present, graphic organizers have become recognized instructional tools to help support students as they write. The purpose of this study is to examine the impact of paper-based and digital graphic organizers to improve persuasive writing of fourth and fifth grade students. A quasi-experimental study with a comparison design with pre-test and post-tests was used with the switching replication method. The population consists of sixty-seven public and private school students in fourth and fifth grade. The most prominent results indicate that the use of a digital graphic organizer first, leads to significant improvements in the following five writing outcome areas: goal statements, reasoning statements, supporting arguments, conclusion statements, and overall scores. Likewise, female students also**

showed significant improvements in all five writing outcomes. Comparable to digital, the use of paper-based graphic organizers first, resulted in significant improvements in three areas: supporting arguments, conclusion statements, and overall scores. For older students (aged 10-11), the use of both paper-based and digital graphic organizers first, leads to significant improvements in the following five writing outcome areas: goal statements, reasoning statements, supporting arguments, conclusion statements, and overall scores. The overall results indicate that graphic organizers yield significant improvements in the persuasive writing of fourth and fifth grade students. Furthermore, a consistent finding throughout this study is that the use of paper-based and digital graphic organizers results in significant improvements in these three areas: supporting arguments, conclusion statements, and overall scores.
