or a cheap but quality secret santa present for under 10 dollars. Can be used as a blank notebook, journal to write in, composition book or diary. Prayer with Purpose: 90 Days of Prayer for Your Unborn Child is a journal for families to cover spiritual and physical needs of an unborn baby in prayer. There is very little a woman can do to control her pregnancy, however God has given the gift of prayer, for families to storm the Heavens with desires for the baby. This is a journal for mothers, fathers, grandparents, siblings, aunts, uncles, godparents, friends, pastors or anyone who wants to join forces and pray for a child forming in a mothers womb. Throughout the 90 days families will cover spiritual virtues with scripture as well as physical needs/desires for the baby and the pregnancy/delivery. Included on the pages are necessary definitions to help families better understand what they are praying for and recognize answered prayer when this miracle from The Most High finally arrives! The back of the book includes pages to document the wonderful things about the baby in the hospital. This book is a great keepsake to remember the blessings from the Lord during this amazing time. Please visit [prayerwithpurpose.com](http://prayerwithpurpose.com) to find additional resources for pregnancy, daily prayer devotionals for parents and a lot of helpful information when the baby is finally here. Prayer with Purpose: Passionate Prayer for Your Child is also available for families to continue praying and journaling for and with a child. What might happen if pregnant mothers and expectant fathers learned to pray for their baby - even before its birth? Francis and Judith MacNutt believe that if enough couples start praying for their unborn children a gentle revolution will take place. Those children will become more disposed to love God, happier and more secure. A practical book filled with helpful advice and case studies, now reissued with a new cover. The author offers her channeling techniques to help moms-to-be tap into the deep intuitive powers of pregnancy and meet their unborn child before birth. Focusing on creating a conscious union with the growing baby in utero, this detailed guide introduces a practice of weekly meditations, yoga, and affirmations that reflect the developmental and physiological changes taking place both inside and outside the womb. The book enhances the experience of pregnancy and prepares mothers physically, emotionally, and spiritually for child birth and motherhood. Beginners to yoga as well as regular practitioners will learn unique approaches and proper techniques that initiate a healthful, purposeful connection with the mother's own body and with her unborn child. In this powerful book, author Helena Clare shares her pregnancy journey and the techniques that facilitated her communion with her unborn child so you can do the same with your own pregnancy and birth process. From a renowned team of specialists comes an authoritative handbook to explain what is happening to mother and baby every step of the way during pregnancy. Organized by topic for quick reference. Abstract: Risks associated with drinking alcohol during pregnancy, including the physical effects of heavy drinking on the developing fetus, are discussed. Specific mental, physical, and behavioral abnormalities characteristic of "fetal alcohol syndrome" are described. Risks associated with drinking smaller amounts of alcohol on a regular basis and with occasional binge drinking are not well understood. Alternatives to drinking such as exercising, talking, listening to music, or writing may help women handle some of the stresses associated with pregnancy. Outside help is available for women who suspect that they have an alcohol-related problem. Caution is recommended for using other drugs as well as alcohol during pregnancy and some general guidelines that increase a woman's chances of having a healthy baby are presented. (aj) "Please Mum let me live, because we need each other's love." The preceding line, is one of many desperate pleas, in the amazing book, titled, 'The Voice of the Unborn Child,' that the trembling growing child in the womb makes to her Mother, so her Mother might see the light and let her live. Who would benefit from buying this book, obviously pregnant teenagers and their boyfriends, other men and women. Obviously journalists, politicians, teachers, lawyers and many other people. If you are in the pro-life movement, you may need to read this book carefully as you may

well be using words and phrases that are helping to kill, growing unborn babies, without you realizing it. There is a lot more that could be wrote here about this book of courageous truth, buy it, read it, and if you think it will save human lives, if you can afford it, buy hundreds of this book and help spread the message, that the weak and defenseless growing unborn child, because he or she is a human being, is entitled to his or her human rights too, and also the message that a Mother is always happier, when she gives birth to her unique and special daughter or son. Few Mother's have ever regretted giving birth to their son or daughter, but millions of women have regretted having abortions. Buy this book and tell other people about this book and help say no, to continuing the tears of abortion sorrows, because the abortion holocaust has already killed and hurt far too many human beings! This challenging volume gathers a selection of the mass of material available from the major human rights instruments, from first drafts, legislative histories, and contemporary commentaries, from more recent scholarship as well as from the General Comments and Concluding Observations and Recommendations of the various treaty monitoring bodies relating to the topic of the unborn child. Contemporary reinterpretations of these documents are held up to the searchlight of historical context, including a reminder of the original purpose and meaning and the philosophical foundation of modern international human rights law. "A startling account of recent work in this field...timely, balanced, useful." -R.D. Laing

What will your child remember about life before birth? For a renowned conductor, it's the music his mother played—only during her pregnancy! For an autistic girl, unable to speak her native French, it's the English that her mother spoke—three months before she was born! For others, it's the sound of a voice, the murmur of a beating heart, the glare of lights in a hospital delivery room. Memories that may be comforting—or terrifying. Long before they're born, your children are thinking, feeling, and even acting. What happens to them before—and as—they are born may profoundly shape the people they will become. These startling findings have even more dramatic implications. They give us a chance to help determine the course of our children's lives will take—starting months before they're born. The relationship between mother and child begins the moment a woman learns she is pregnant. *Meditations for Pregnancy* is a beautiful tool for mothers-to-be to enhance that relationship, nurture their bodies through a healthy pregnancy, and focus their thoughts on a joyful birth experience. Pregnancy can inspire an overwhelming host of emotions. A woman may feel excitement about the new life growing inside her, yet apprehension about the changes it will bring. Her body is expanding; her hormones are out of control. Everyone offers unsolicited advice. What she really needs is a way to calm her fears, center her thoughts, and focus her mind on her prenatal child. *Meditations for Pregnancy* is written by an expert in pregnancy and birthing to provide guidance and comfort to the mother-to-be throughout the weeks of her pregnancy. For each week, beginning with the fifth, the book provides a thoughtful meditation that speaks to the specific needs and joys of that phase of pregnancy. Inspirational quotations and a short affirmation accompany each meditation, along with a brief description of the development of the growing fetus that week. Best of all, an audio CD features a 20-minute guided meditation to calm the expectant mom's emotions. It is read by the author and accompanied by soothing music. *Meditations for Pregnancy* is a wonderful way for women to explore their feelings, calm their nerves, and bond with their babies—all in preparation for the transformative experience of birth. Presents a comprehensive guide to caring for newborns, and contains information on health care, feeding, sleeping habits, traveling, sickness, and more. Alina has no children of her own, so she agrees to become a surrogate for her friend Louise, who can't have children. Tragically, Louise and her husband die in an accident while Alina is carrying their child. After giving it some serious thought, Alina decides to approach Louise's brother, Ethan, and ask him to become the child's guardian. Alina is surprised by how handsome Ethan is, but even more

surprised by what he offers. He suggests that they form a marriage of convenience and raise the child as their own! Information and guidance for young adults. At sixteen weeks the unborn child shies away from light. At twenty weeks there is a response to speech patterns. At twenty-five weeks the baby can kick in time to music. And at six months the unborn baby can understand the subtle shifts of its mother's emotions. *THE SECRET LIFE OF THE UNBORN CHILD* presents for the first time the challenging results of two decades of painstaking international research into the earliest stages of life. Dr Verny's knowledge gives both mothers and fathers an unparalleled opportunity to help their unborn children. Now they can contribute actively- before and during birth- to giving their child happiness and security for the rest of his or her life. Could they be just what each other need? An extraordinary account of the psychic communication received by an Austrian mother in the fifth month of her pregnancy about the experiences and thoughts of the baby in her womb. A big seller in Germany, this is for parents and anyone interested in the human psyche. What if an unborn baby could talk? Well, this one does! Listen in and hear this sweet baby's charming, thoughtful, humorous musings during its nine-month adventure! If baby seems to have a little attitude as gets more crowded in there, well The baby tries to figure out the meaning of the words it hears at home, visits to the doctors office, in the garden, going to the hospital and more! There is original colorful artwork throughout the book. Prepare to laugh and weep no wonder we cherish the unborn. A great gift for mom-to-be, and a wonderful read-aloud to brothers and sisters. *Nine Months in my Mommy* is utterly creative, exceptionally charming! Purchase the companion book called "Hello in There!": Poetry to read to the Unborn Baby. Your baby is yet to be born . . . but she's listening, learning, and aware of the outside world Traditionally, the world of an as-yet-unborn baby was thought to be an isolated and silent one. It was assumed that, asleep and growing in its mother's womb, the developing baby was incapable of experiencing sight, sound, thought, or emotion. In fact, the truth is very different, as bestselling author Nikki Bradford reveals here. Drawing on the latest research by leading authorities in the field, the author explains how the unborn baby's awareness of the outside world develops rapidly from very early in pregnancy. Did you know that unborn babies respond to sound, and duck away from strong light, as early as 16 weeks? That they have been observed shying away from--and even attacking--an amniocentesis needle at around the same time? That babies follow moving light sources with their hands by 20 weeks? Or that they recognize music and nursery rhymes from 33 weeks? "The Miraculous World of Your Unborn Baby" not only offers you unique insights into your child's remarkable mental and physical developments in the womb, but also provides wide-ranging information on pregnancy and childbirth. This information is featured in comprehensive sections on: How babies grow, week-by-week: Stunning color photographs enable you to follow the physical development of your baby. Did you know that the first heartbeat can be detected at about five weeks, and that fingernails appear by ten weeks? Your pregnancy and birth: Just how does the body cope with it all? Advice and information are provided on every stage of pregnancy. What babies can do in the womb: The latest research findings about unborn babies' emotional awareness and learning abilities; the evidence of communication (and telepathy) between babies and mothers. What unborn babies know: What babies hear, sense, experience, dream--and remember--about being born and being in the womb. Looks at babies' emotional development, including reactions to your various moods. Nikki Bradford has written "The Miraculous World of Your Unborn Baby" in consultation with leading experts in the field: San Diego-based Dr. David B. Chamberlain, President of the International Association for Pre- and Perinatal Psychology and Health, and arguably the world authority on prenatal psychology; Professor Geoffrey Chamberlain, past President of the Royal College of Obstetrics and Gynaecology in the United Kingdom; and Dr. Sammy Lee, an acclaimed London-based consultant embryologist. Tertullian of Carthage was the earliest Christian writer to argue against abortion

at length, and the first surviving Latin author to consider the unborn child in detail. This book is the first comprehensive analysis of Tertullian's attitude towards the foetus and embryo. Examining Tertullian's works in light of Roman literary and social history, Julian Barr proposes that Tertullian's comments on the unborn should be read as rhetoric ancillary to his primary arguments. Tertullian's engagement in the art of rhetoric also explains his tendency towards self-contradiction. He argued that human existence began at conception in some treatises and not in others. Tertullian's references to the unborn hence should not be plucked out of context, lest they be misread. Tertullian borrowed, modified, and discarded theories of ensoulment according to their usefulness for individual treatises. So long as a single work was internally consistent, Tertullian was satisfied. He elaborated upon previous Christian traditions and selectively borrowed from ancient embryological theory to prove specific theological and moral points. Tertullian was more influenced by Roman custom than he would perhaps have admitted, since the contrast between pagan and Christian attitudes on abortion was more rhetorical than real. Pregnancy can be a tense time for a mother and her partner, but Dr. Thomas Verny and Pamela Weintraub have outlined ways for parents to communicate with their child in order to relieve stress and create a lasting bond. NURTURING THE UNBORN CHILD diagrams a nine-month program involving such exercises as massage, music and dance to stimulate the relationship between parents and child. Through these techniques parents can learn how to analyze their fears during pregnancy and create ways to alleviate them permanently. NURTURING THE UNBORN CHILD is an essential guide to learning how to communicate with and stimulate your baby before it commences its journey to the outside world. Your baby is yet to be born . . . but she's listening, learning, and aware of the outside world!

NATIONAL BESTSELLER • A "suspenseful, dazzlingly clever and gravely profound" (*The Washington Post*) novel that brilliantly recasts Shakespeare and lends new weight to the age-old question of Hamlet's hesitation, from the Booker Prize winner and bestselling author of *Atonement*. Trudy has been unfaithful to her husband, John. What's more, she has kicked him out of their marital home, a valuable old London town house, and in his place is his own brother, the profoundly banal Claude. The illicit couple have hatched a scheme to rid themselves of her inconvenient husband forever. But there is a witness to their plot: the inquisitive, nine-month-old resident of Trudy's womb. As Trudy's unborn son listens, bound within her body, to his mother and his uncle's murderous plans, he gives us a truly new perspective on our world, seen from the confines of his. Don't miss Ian McEwan's new novel, *Lessons*, coming in September! The choice is yours: will you choose life or will you choose death? When it comes to determining your stance on the abortion debate, this simple question exhibits your belief and understanding of what it means to let an unborn child live or die. Author Jim Harrison is the happy father of two adult sons and grandfather of four grandchildren, so he believes in the preciousness of life and giving a child a chance. His new nonfiction book, *Pro-Life: Saving the Lives of Unborn Children, Making Possible Their Descendants, and Helping Their Parents*, gives readers a comprehensive glimpse into conception, pregnancy and how abortion changes the whole biological process. Jim begins his argument for pro-life by detailing the intricate steps of procreation, from the conception between an egg and a sperm to the milestones an unborn baby reaches at different points in pregnancy: the first time practicing breathing, the ability to listen, learn and remember, the preparation for being delivered. However, Jim also makes sure to educate readers, men and women, on the unsettling procedures performed under the umbrella of abortion; procedures that are more inhumane and violent than an unsuspecting mother-to-be might believe. Abortion also doesn't end when the child is removed, but lasts with the former mother through medical complications and internal struggles with her choice. Included in *Pro-Life* are discussion points about descendants from an aborted child

that will never be born, and discoveries/achievements never made, as well as the lack of babies to be adopted by countless parents ready to begin their families. The hope is that fathers and mothers will use the resources and knowledge within the book to make the life-securing decision to give their children continued life, and maybe adopt them to prospective parents ready to welcome them home. As stated earlier, the choice is yours to make; to Jim, you can't know what God has chosen for your child to achieve if not given life.
